

Experience matters: collaborating with **Patent Practitioners** to manage evolving risks for more than 50 years.

PATENT PRACTITIONERS

RELY ON THE **NATION'S LEADING INSURER** FOR PROFESSIONALS

Clients select patent practitioners based upon their professional expertise and the ability to serve the client's individual intellectual property needs. Similarly, patent practitioners select CNA as a professional liability insurance carrier based upon CNA's experience and insurance products tailored specifically to intellectual property professionals.

With more than 50 years of experience in providing professional liability insurance, CNA offers a broad range of insurance products and solutions through its underwriting, claim and risk control teams. These specialties work together to develop customized policies, dedicated claim services, and proactive risk control resources, to address the evolving exposures in an intellectual property firm.

### **A Dedicated Risk Control Team**

CNA understands that patent practitioners face unique challenges. Our risk control team is comprised of full-time experienced attorneys, including a registered patent attorney, who work exclusively with CNA's insured patent practitioners. Team members have also spoken at industry events focusing on trending issues in intellectual property.

### **Intellectual Property Webinars**

As part of CNA's Professional Liability Risk Control webinar series, CNA presents a free annual webinar focusing on trending risks facing intellectual property practitioners. This program is sponsored by Jamison and CNA. The webinar series is presented four times per year by CNA Risk Control attorneys specializing in this area of practice. These courses may also qualify for free CLE credit.

### **Online Resources**

CNA's Professional Counsel publications offer practical guides, articles, industry trend studies and other self-help tools, which can be located at [www.cna.com/lpriskcontrol](http://www.cna.com/lpriskcontrol).

### **IP Firm-Specific Seminars**

Interested in hosting a speaker for your firm to address current trends in the intellectual property field and risk management topics? CNA's Professional Liability Risk Control team is available to partner with a network of industry-leading speakers to discuss these issues directly with your firm. Whether you are interested in a presentation at your firm's annual retreat, a lunch-and-learn environment or an exclusive presentation limited to your management team, CNA can work with you to find the best fit for your firm's needs. These courses may also qualify for CLE credit.

### CNA Allied Vendor Program

CNA has identified companies offering services that may strengthen your firm's risk control programs and provide needed services outside of an insurance carrier's capabilities. The companies that participate in our Allied Vendor Program can assist you in developing critical programs and procedures that will help you avoid and manage professional liability exposures in your practice. As a value-added service for our customers, most of our Allied Vendors offer their services at preferred rates.

### Risk Control Hotline

CNA's Risk Control Hotline is staffed by CNA attorneys specializing in legal ethics and law practice management. The hotline provides CNA policyholders with a resource for discussing issues and questions that arise in day-to-day intellectual property practice. In addition, CNA provides an exclusive IP Pre-claim Assistance Resource that provides our policyholders with assistance in determining whether an incident pertaining to their IP practice should be reported and how to mitigate prospective damages.

**General Law Practice Management Hotline:** 866-262-0034

**IP Pre-Claim Assistance Helpline:** 888-236-3868

**To learn more about how CNA's products and risk control services can help your practice, please contact Jamison Underwriting Services at 800-526-4766, fax: 973-731-3035 or [tpeelee@jamisongroup.com](mailto:tpeelee@jamisongroup.com).**
